<tr>
<td>What is the overall deductible?</td>
<td>$0</td>
<td>You must pay all the costs up to the deductible amount before this plan begins to pay for covered services you use. Check your policy or plan document to see when the deductible starts over (usually, but not always, January 1st). See the chart starting on page 2 for how much you pay for covered services after you meet the deductible.</td>
</tr>
<tr>
<td>Are there other deductibles for specific services?</td>
<td>No</td>
<td>You must pay all of the costs for these services up to the specific deductible amount before this plan begins to pay for these services.</td>
</tr>
<tr>
<td>Is there an out-of-pocket limit on my expenses?</td>
<td>Yes. For participating providers $3,350 person / $6,700 family.</td>
<td>The out-of-pocket limit is the most you could pay during a coverage period (usually one year) for your share of the cost of covered services. This limit helps you plan for health care expenses.</td>
</tr>
<tr>
<td>What is not included in the out-of-pocket limit?</td>
<td>Premiums and health care this plan doesn't cover.</td>
<td>Even though you pay these expenses, they don’t count toward the out-of-pocket limit.</td>
</tr>
<tr>
<td>Is there an overall annual limit on what the plan pays?</td>
<td>No.</td>
<td>The chart starting on page 2 describes any limits on what the plan will pay for specific covered services, such as office visits.</td>
</tr>
<tr>
<td>Does this plan use a network of providers?</td>
<td>Yes. For a list of contracted providers, please see lacare.org or call 1-855-270-2327</td>
<td>If you use an in-network doctor or other health care provider, this plan will pay some or all of the costs of covered services. In some cases, a non-plan provider may provide covered services at an in-network facility where you have been authorized to receive care. You are not responsible for any amounts beyond your cost share for the covered services you receive at plan facilities or at in-network facilities where we have authorized you to receive care. Plans use the term in-network, preferred, or participating for providers in their network. See the chart starting on page 2 for how this plan pays different kinds of providers.</td>

Summary of Benefits and Coverage: What this Plan Covers & What it Costs

Coverage Period: 01/01/2018 – 12/31/2018

Coverage for: Individual + Family | Plan Type: HMO

Do I need a referral to see a specialist?

Yes. Your Primary Care Physician (PCP) has to refer you.

This plan will pay some or all of the costs to see a specialist for covered services but only if you have the plan’s permission before you see the specialist.

Are there services this plan doesn’t cover?

Yes.

Some of the services this plan doesn’t cover are listed on page 6. See your policy or plan document for additional information about excluded services.

- Co-payments are fixed dollar amounts (for example, $15) you pay for covered health care, usually when you receive the service.
- Coinsurance is your share of the costs of a covered service, calculated as a percent of the allowed amount for the service. For example, if the plan’s allowed amount for an overnight hospital stay is $1,000, your coinsurance payment of 20% would be $200.
- The amount the plan pays for covered services is based on the allowed amount. If an out-of-network provider charges more than the allowed amount, you may have to pay the difference. For example, if an out-of-network hospital charges $1,500 for an overnight stay and the allowed amount is $1,000, you may have to pay the $500 difference. (This is called balance billing.) In some cases, a non-plan provider may provide covered services at an in-network facility where you have been authorized to receive care. You are not responsible for any amounts beyond your cost share for the covered services you receive at plan facilities or at in-network facilities where we have authorized you to receive care.
- This plan may encourage you to use network providers by charging you lower copayments and coinsurance amounts.

Questions and answers about the Coverage Examples:

What are some of the assumptions behind the Coverage Examples?

- Costs don’t include premiums.
- Sample care costs are based on national averages supplied by the U.S. Department of Health and Human Services, and aren’t specific to a particular geographic area or health plan.
- The patient’s condition was not an excluded or preexisting condition.
- All services and treatments started and ended in the same coverage period.
- There are no other medical expenses for any member covered under this plan.
- Out-of-pocket expenses are based only on treating the condition in the example.
- The patient received all care from in-network providers.

What does a Coverage Example show?

For each treatment situation, the Coverage Example helps you see how deductibles, co-payments, and coinsurance can add up. It also helps you see what expenses might be left up to you to pay because the service or treatment isn’t covered or payment is limited.

Does the Coverage Example predict my own care needs?

- No. Treatments shown are just examples. The care you would receive for this condition could be different based on your doctor’s advice, your age, how serious your condition is, and many other factors.

Does the Coverage Example predict my future expenses?

- No. Coverage Examples are not cost estimators. You can’t use the examples to estimate costs for an actual condition. They are for comparative purposes only. Your own costs will be different depending on the care you receive, the prices your providers charge, and the reimbursement your health plan allows.

Can I use Coverage Examples to compare plans?

- Yes. When you look at the Summary of Benefits and Coverage for other plans, you’ll find the same Coverage Examples. When you compare plans, check the “Patient Pays” box in each example. The smaller that number, the more coverage the plan provides.

Are there other costs I should consider when comparing plans?

- Yes. An important cost is the premium you pay. Generally, the lower your premium, the lower your costs will be.
