L.A. Care Medi-Cal Formulary

INTRODUCTION

Foreword

The L.A. Care Medi-Cal formulary is a preferred list of covered drugs, approved by the L.A. Care Health Plan Pharmacy Quality Oversight Committee. This formulary applies only to outpatient drugs and self-administered drugs. It does not apply to medications used in the inpatient setting or medical offices.

The formulary is a continually reviewed and revised list of preferred drugs based on safety, clinical efficacy, and cost-effectiveness. The formulary is updated monthly, updated documents are available online at: <http://www.lacare.org>.

How to Use the Formulary

The formulary drug listing begins on Page 4. Drugs available in generic formulations are listed by their generic names and it's most common proprietary (branded) name is capitalized next to the generic name in parenthesis. Drugs that are only available in brand name formulations are listed in ALL CAPITAL letters.

The formulary can be searched by using the "Ctrl + F" function or the index. Drugs can be searched by the generic name, proprietary name, or therapeutic drug category.

Generic and Brand Name Medications

L.A. Care's Medi-Cal Plan covers generic and brand name drugs. However, when available, FDA approved generic drugs are to be used in all situations, regardless of the availability of a brand. Generic drugs generally cost less than brand name drugs. All drugs that are or become available generically are subject to review by L.A. Care's Pharmacy Quality Oversight Committee.

A prescriber may request a brand name product in lieu of an approved generic, if the prescriber determines that there is a documented medical need for the brand equivalent. This type of request for coverage may be made using the 'Medication Request Process' described on Page 3.

Non-Formulary Medications

Any drug not found in this formulary listing published by L.A. Care Health Plan shall be considered a non-formulary drug.

A prescriber may request an exception to coverage for a non-formulary drug if the prescriber determines that there is a documented medical need. This type of request for coverage may be made using the 'Medication Request Process' described on Page 3.

Benefit Coverage and Limitations

This printed formulary does not provide information regarding the specific coverage and limitations an individual may have. The individual may have specific benefit inclusions, exclusions, and/or cost share which are not reflected in the formulary.

The formulary applies only to outpatient drugs provided to members, and does not apply to medications used in inpatient settings. Any specific questions regarding their coverage should be directed to L.A. Care Health Plan Member Services at 1-888-839-9909 (TTY: 711).

Restrictions on Medication Coverage

Certain covered drugs may have additional requirements or limits on coverage. These are denoted throughout the document using the following symbols:

Symbol	Restriction	Description
INF	Infertility	Infertility drugs
NC	Not Covered	Drug that is non-formulary and will not be paid for by the plan without prior approval/prior authorization
QL	Quantity Limit	Coverage may be limited to specific quantities per prescription and/or time period
SP	Specialty Pharmacy Availability	Drug is considered a specialty drug and is available through the specialty pharmacy vendor, however they are not restricted to a specific pharmacy
VAC	Vaccine Program	Coverage is available through a vaccine program
LD	Limited Distribution	Coverage is available through a limited distributor or limited number of distributors
OTC	Over the Counter	Coverage of OTC medication
RS	Restricted to Specialist	Coverage may be dependent on the specialty of the prescribing physician
MSP	Mandatory Specialty Pharmacy Program	All fills, including the initial fill MUST be dispensed at the specialty pharmacy provider of the plans
PA	Prior Authorization	Requires specific physician request process
SMKG	Smoking Cessation	Coverage for the treatment of smoking cessation drugs, which may have specific restrictions
ST	Step Therapy	Coverage may require one or more "prerequisite" first step drugs to be tried before progressing to the second step drug

Please refer to the formulary listing beginning on Page 4 for details regarding specific agents.

Medication Request Process

Formulary Agents

- A. Prior Authorization (PA): These drugs require approval prior to being dispensed at a network pharmacy. Requests are reviewed with specific Prior Authorization guidelines. Each request will be reviewed on individual patient need. If the request does not meet the guidelines established by the P&T Committee, the request will not be approved and alternative therapy may be recommended.
- B. Quantity Limits (QL): These drugs have quantity limits. If quantities exceeding the limit are necessary, an exception to coverage may be requested by the prescriber. Each request will be reviewed on individual patient need. Approval will be given if a documented medical need exists without compromising safety.
- C. Step Therapy (ST): These drugs require one or more first step drugs to be tried before progressing to the second step drug. If there is a medical need to use a second step drug without trying a first step drug, an exception to coverage may be requested by the prescriber. Each request will be reviewed on an individual patient need. Approval will be given if a documented medical need exists.

Non-Formulary Agents

- A. Any drug not found on this list is considered non-formulary. Coverage for non-formulary agents may be requested by the prescriber. Each request will be reviewed on individual patient need. Approval will be given if a documented medical need exists.
- B. The 'Medication Request Process' is generally not available for drugs that are specifically excluded by benefit design. For benefit exclusions refer to the 'General Exclusions' section below.

Non-approved requests may be appealed. The prescriber must provide information to support the appeal on the basis of medical necessity.

General Benefit Exclusions (Not Covered)

Please note that this list is subject to change.

- A. Drugs specifically listed as not covered
- B. Any drug products used for cosmetic purposes
- C. Infertility agents
- D. Experimental drug products, or any drug product used in an experimental manner
- E. Non self-administered injectable drug products are not covered unless otherwise specified in the formulary listing
- F. Foreign drugs or drugs not approved by the United States Food & Drug Administration

Pharmacist and Physician Feedback

The formulary is a tool to promote cost-effective prescription drug use. L.A. Care has made every attempt to create a document that meets all therapeutic needs; however, the art of medicine makes this a formidable task. L.A. Care welcomes the participation of physicians, pharmacists, and ancillary medical providers, in this dynamic process. Physicians and pharmacists are highly encouraged to direct any suggestions or comments to L.A. Care via e-mail to PharmacyandFormulary@lacare.org.

Search Tip:

This is a large document, but you can search quickly and easily by clicking on the binocular icon on your toolbar. It will then display a search box for you to type in the name of the drug you want to locate. If you do not know the correct spelling, you can start your search by entering just the first few letters of the name.
