

Marketplace Exchange Standard Formulary

L.A. Care Covered

Administered by MedImpact

Effective October 2014

Foreword

This document represents the efforts of L.A. Care Health Plan and the MedImpact Healthcare Systems Pharmacy and Therapeutics (P & T) and Formulary Committees to provide physicians and pharmacists with a method to evaluate the safety, efficacy and cost-effectiveness of commercially available drug products. A structured approach to the drug selection process is essential in ensuring continuing patient access to rational drug therapies.

This is accomplished through the auspices of the MedImpact P & T and Formulary Committees. These committees meet quarterly and more often as warranted to ensure clinical relevancy of the Formulary. To accommodate changes to this document, updates are made accessible as necessary.

Access to the most current version of the L.A. Care Covered Formulary can be obtained by visiting <http://www.lacarecovered.org/for-members/pharmacy-center>.

The MedImpact P & T and Formulary Committees use the following criteria in the evaluation of drug selection for the Marketplace Exchange Standard Formulary:

- Drug safety profile
- Drug efficacy
- Comparison of relevant therapeutic benefits to current formulary agents of similar use, and to minimize therapeutic duplication where possible
- Cost-effectiveness relative to comparable therapies

How to Use the Formulary

The Formulary is a list of medications available to L.A. Care Covered members under their pharmacy benefit. All drugs are listed by their generic names and most common proprietary (branded) name. The Formulary may be accessed by using the index, either by generic or proprietary name and by therapeutic drug category. In situations where an FDA approved generic equivalent is

available, brand names are listed for reference purposes only, and do not denote coverage for the brand, unless specifically noted.

All drugs are listed in each category in alphabetical order by generic name. Where an FDA approved generic is available for the listed generic name, the generic name is **bolded**.

For certain agents within the Formulary, a recommended prescribing guideline may apply. These are denoted throughout the document using the following symbols:

Symbol	Guideline	Description
AGE	Age Edit	Coverage may depend on patient age
G	Gender Edit	Coverage may depend on patient gender
PA	Prior Authorization	Requires specific physician request process
QL	Quantity Limit	Coverage may be limited to specific quantities per prescription and/or time period
ST	Step Therapy	Coverage may depend on previous use of another drug

Please refer to the prescribing guideline appendix within this document for details regarding specific agents.

Benefit Coverage and Limitations

This printed Formulary does not provide information regarding the specific coverage and limitations an individual member may be subject to. Many members have specific benefit inclusions, exclusions, copays, or a lack of coverage, which are not reflected in the Formulary.

The Formulary applies only to outpatient drugs provided to members, and does not apply to medications used in inpatient settings. If a member has any specific questions regarding their coverage, they should contact L.A. Care

Health Plan at (855) 270-2327 or MedImpact at (800) 788-2949.

Depending upon a member's specific benefit parameters, the following topics may apply:

1. Generic Substitution

When available, FDA approved generic drugs are to be used in all situations, regardless of the brand name indicated. The generic names are bolded in the formulary listing wherever an FDA approved generic drug product is available. Greater economy is realized through the use of generic equivalents. This policy is not meant to preclude or supplant any state statutes that may exist. All drugs that are or become available generically are subject to review by MedImpact's Pharmacy and Therapeutics Committee. MedImpact approves such multi-source drugs for addition to the MAC list based on the following criteria:

- A multi-source drug product manufactured by at least one (1) nationally marketed company.
- At least one (1) of the generic manufacturer's products must have an "A" rating or the generic product has been determined to be unassociated with efficacy, safety or bioequivalency concerns by the MedImpact P & T Committee.
- Drug product will be approved for generic substitution by the MedImpact P & T Committee.

This list is reviewed and updated periodically based on the clinical literature and pharmacokinetic characteristics of currently available versions of these drug products.

If a member or physician requests a brand name product in lieu of an approved generic, the member, based upon their coverage, will typically be required to pay the difference in cost between the brand and the generic. If a physician determines that there is a documented medical need for the brand equivalent, a request for coverage may be made using the medication request process.

2. Tier Benefit Design

The Formulary may be applied to a tier benefit design, where the member shares the cost of prescription drug therapy based on the drug's tier and copayment or coinsurance. In most instances, generically

available drugs will be covered in a separate lower tier (low copay), preferred branded drugs listed on the Formulary will be covered under a higher tier, and branded drugs not on the Formulary will be covered under a separate non-preferred branded drug copay tier. Specialty drugs will be covered under the highest tier (highest copay). Essential health benefit/preventative medications, if available on the formulary (applies to new and non-grandfathered plans), will be covered without cost sharing (zero copay).

Tier Definitions

- Tier 1: Preferred generic medications (formulary agents)
- Tier 2: Preferred brand medications (formulary agents)
- Tier 3: Non-preferred medications (non-formulary agents)
- Tier 4: Specialty medications
- Tier 5: EHB Zero Copay/Preventative medications

3. Medication Request Process

Depending upon plan benefit design, a medication request process may apply as follows:

Drugs that are listed in the Formulary with associated Prior Authorization (PA) require evaluation, per MedImpact P & T Committee Prior Authorization guidelines prior to dispensing at a pharmacy. Each request will be reviewed on an individual patient need basis. If the request does not meet the guidelines established by the P & T Committee, the request will not be approved and alternative therapy may be recommended.

If the request does not meet the guidelines established by the P & T Committee, the request will not be approved and alternative therapy may be recommended.

Obtaining Coverage

Coverage, questions or information regarding the medication request or formulary process may be obtained by:

1. Faxing a completed **Medication Request Form** to MedImpact at (800) 681-7651.

2. Contacting MedImpact at (855) 270-2327 and providing all necessary information requested. MedImpact will provide an authorization number, specific for the medical need, for all approved requests. Non-approved requests may be appealed. The prescriber must provide information to support the appeal on the basis of medical necessity. Prior Authorization is generally not available for drugs that are specifically excluded by benefit design.

4. General Exclusions

- A. Over the Counter (OTC) medications or their equivalents, unless the individual's pharmacy benefit offers coverage of OTC medications.
- B. Drugs specifically listed as not covered.
- C. Any drug products used for cosmetic purposes.
- D. Experimental drug products or any drug product used in an experimental manner.
- E. Replacement of lost or stolen medication.
- F. Non self-administered injectable drug products unless otherwise specified in the Formulary listing.
- G. Foreign sourced drugs or drugs not approved by the United States Food & Drug Administration, except in certain cases of drug shortage, when allowed under the individual's pharmacy benefit.

The P & T and Formulary Committees recognize that not all medical needs can be met with this document and encourage inquiries about alternative therapies.

5. Pharmacist and Physician Communication

The Formulary is a tool to promote cost-effective prescription drug use. The P & T and Formulary Committees have made every attempt to create a document that meets all therapeutic needs; however, the art of medicine makes this a formidable task. MedImpact welcomes the participation of physicians, pharmacists, and ancillary medical providers, in this dynamic process. Physicians and pharmacists are highly encouraged to direct any suggestions, comments or formulary additions to MedImpact at the following address:

- AMETHYST Prior prescription for Norgestimate-ethinyl Estradiol in 120 days
- ANTARA Prior prescription for Fenofibrate in 120 days or Lofibra in 120 days or Lopid in 120 days or Tricor in 120 days or Triglide in 120 days
- ANZEMET(TAB)(100 MG) Prior prescription for Anzemet in 120 days or Ondansetron Hcl in 120 days or Zofran Odt in 120 days or Zofran in 120 days
- ANZEMET(TAB)(50 MG) Prior prescription for Anzemet in 120 days or Ondansetron Hcl in 120 days or Zofran Odt in 120 days or Zofran in 120 days
- APLENZIN Prior prescription for Zyban in 120 days
- APTIOM(TAB)(200 MG) Atleast 2 of Prior prescription for Divalproex Sodium Er in 365 days or Lamotrigine Er in 365 days or Levetiracetam Er in 365 days or Neurontin in 365 days or Tegretol

Preferred Drug List Medication Prescribing Limitations

- APTIOM(TAB)(400 MG) Xr in 365 days or Trileptal in 365 days or Trokendi Xr in 365 days or Valproic Acid in 365 days or Zonisamide in 365 days
Atleast 2 of Prior prescription for Divalproex Sodium Er in 365 days or Lamotrigine Er in 365 days or Levetiracetam Er in 365 days or Neurontin in 365 days or Tegretol Xr in 365 days or Trileptal in 365 days or Trokendi Xr in 365 days or Valproic Acid in 365 days or Zonisamide in 365 days
- APTIOM(TAB)(600 MG) Atleast 2 of Prior prescription for Divalproex Sodium Er in 365 days or Lamotrigine Er in 365 days or Levetiracetam Er in 365 days or Neurontin in 365 days or Tegretol Xr in 365 days or Trileptal in 365 days or Trokendi Xr in 365 days or Valproic Acid in 365 days or Zonisamide in 365 days
- APTIOM(TAB)(800 MG) Atleast 2 of Prior prescription for Divalproex Sodium Er in 365 days or Lamotrigine Er in 365 days or Levetiracetam Er in 365 days or Neurontin in 365 days or Tegretol Xr in 365 days or Trileptal in 365 days or Trokendi Xr in 365 days or Valproic Acid in 365 days or Zonisamide in 365 days
- ARCAPTA NEOHALER Prior prescription for Serevent Diskus in 120 days
- ASACOL HD Prior prescription for Apriso in 120 days or Colazal in 120 days
- ASMANEX Atleast 2 of Prior prescription for Flovent Diskus in 365 days or Qvar in 365 days
- ASTEPRO Prior prescription for Azelastine Hcl in 120 days
- ATELVIA Atleast 2 of Prior prescription for Fosamax in 365 days or Ibandronate Sodium in 365 days
- AUVI-Q Prior prescription for Auvi-q in 120 days or Twinject in 120 days
- AVODART Prior prescription for Doxazosin Mesylate in 120 days or Prazosin Hcl in 120 days or Proscar in 120 days or Rapaflo in 120 days or Tamsulosin Hcl in 120 days or Terazosin Hcl in 120 days or Uroxatral in 120 days
- AXERT Prior prescription for Rizatriptan in 180 days or Sumatriptan Succinate in 180 days
- AZOR Prior prescription for Captopril-hydrochlorothiazide in 120 days or Losartan Potassium in 120 days
- BANZEL(ORAL SUSP) Prior prescription for Divalproex Sodium Er in 120 days or Lamotrigine Er in 120 days or Trokendi Xr in 120 days or Valproic Acid in 120 days
- BANZEL(TAB)(200 MG) Prior prescription for Divalproex Sodium Er in 120 days or Lamotrigine Er in 120 days or Trokendi Xr in 120 days or Valproic Acid in 120 days
- BANZEL(TAB)(400 MG) Prior prescription for Divalproex Sodium Er in 120 days or Lamotrigine Er in 120 days or Trokendi Xr in 120 days or Valproic Acid in 120 days
- BECONASE AQ Prior prescription for Flunisolide in 365 days or Fluticasone Propionate in 365 days
- BENICAR Prior prescription for Captopril-hydrochlorothiazide in 120 days or Losartan Potassium in 120 days
- BENICAR HCT Prior prescription for Captopril-hydrochlorothiazide in 120 days or Losartan Potassium in 120 days
- BEYAZ Atleast 2 of Prior prescription for in 365 days or Generess Fe in 365 days or Lo Loestrin Fe in 365 days or Lomedia 24 Fe in 365 days or Loseasonique in 365 days or Microgestin Fe in 365 days or Microgestin in 365 days or Necon in 365 days or Norethin-eth Estra Ferrous Fum in 365 days or Norethindron-ethinyl Estradiol in 365 days or Norinyl 1+50 in 365 days or Ortho Tri-cyclen Lo in 365 days or Ovcon-50 in 365 days or Ovral-28 in 365 days or Pirmella in 365 days or Portia in 365 days or Seasonale in 365 days or Seasonique in 365 days or Sharobel in 365 days or Sprintec in 365 days or Sronyx in 365 days or Tri-legest Fe in 365 days or Tri-norinyl in 365 days or Trinessa in 365 days or Trivora-28 in 365 days or Viorele in 365 days or Wera in 365 days or Zenchent in 365 days or Zeosa in 365 days or Zovia 1-50e in 365 days
- BINOSTO Atleast 2 of Prior prescription for Fosamax in 365 days or Ibandronate Sodium in 365 days
- BRINTELLIX Atleast 2 of Prior prescription for Citalopram Hbr in 365 days or Lexapro in 365 days or Paxil Cr in 365 days or Remeron in 365 days or Selfemra in 365 days or Venlafaxine Hcl Er in 365 days or Zoloft in 365 days or Zyban in 365 days
- BRISDELLE Prior prescription for Paxil Cr in 120 days or Paxil in 120 days or Venlafaxine Hcl Er in 120 days
- BYDUREON Prior prescription for Tolbutamide in 120 days
- BYDUREON PEN Prior prescription for Tolbutamide in 120 days
- BYETTA(PEN INJCTR)(10MCG/0.04) Prior prescription for Chlorpropamide in 120 days or Glimепiride in 120 days or Glucotrol XI in 120 days or Glyburide-metformin Hcl in 120 days or Glynase in 120 days or Metaglip in 120 days or Micronase in 120 days or Pioglitazone Hcl in 120 days or Pioglitazone-glimепiride in 120 days or Pioglitazone-metformin in 120 days or Riomet in 120 days or Tolazamide in 120 days or Tolbutamide in 120 days

Preferred Drug List Medication Prescribing Limitations

- BYETTA(PEN INJCTR)(5MCG/0.02) Prior prescription for Chlorpropamide in 120 days or Glimepiride in 120 days or Glucotrol XI in 120 days or Glyburide-metformin Hcl in 120 days or Glynase in 120 days or Metaglip in 120 days or Micronase in 120 days or Pioglitazone Hcl in 120 days or Pioglitazone-glimepiride in 120 days or Pioglitazone-metformin in 120 days or Riomet in 120 days or Tolazamide in 120 days or Tolbutamide in 120 days
- CALCIPOTRIENE Prior prescription for Topical Anti-inflammatory Steroidal in 120 days
- CELEBREX At least 2 of Prior prescription for in 120 days or Actron in 120 days or Diclofenac Sodium in 120 days or Diclofenac Sodium-misoprostol in 120 days or Etodolac Er in 120 days or Fenoprofen Calcium in 120 days or Flurbiprofen in 120 days or Ibuprofen in 120 days or Ibuprohm in 120 days or Indocin in 120 days or Indomethacin in 120 days or Infants' Motrin in 120 days or Ketoprofen in 120 days or Ketorolac Tromethamine in 120 days or Meclofenamate Sodium in 120 days or Mobic in 120 days or Motrin in 120 days or Nalfon in 120 days or Naprelan in 120 days or Naproxen Sodium in 120 days or Naproxen in 120 days or Oxaprozin in 120 days or Phenylbutazone in 120 days or Piroxicam in 120 days or Ponstel in 120 days or Relafen in 120 days or Sulindac in 120 days or Tolmetin Sodium in 120 days or Toradol in 120 days or Voltaren in 120 days or Voltaren-xr in 120 days or Wal-profen in 120 days or Wal-proxen in 120 days or Zipsor in 120 days
- CESAMET Prior prescription for Ondansetron Hcl in 120 days or Zofran Odt in 120 days or Zofran in 120 days
- CLARINEX(SYRUP) Prior prescription for Desloratadine in 120 days or Xyzal in 120 days
- CLARINEX-D 12 HOUR Prior prescription for Wal-itin D 12 Hour in 180 days or Wal-vert in 180 days or Xyzal in 180 days or Zyrtec in 180 days or Zyrtec-d in 180 days
- CONZIP Prior prescription for Conzip in 120 days or Tramadol Hcl Er in 120 days or Ultram Er in 120 days
- COSOPT PF Prior prescription for Dorzolamide-timolol in 120 days
- CRESTOR(TAB)(10 MG) Prior prescription for Lipitor in 120 days
- CRESTOR(TAB)(20 MG) Prior prescription for Lipitor in 120 days
- CRESTOR(TAB)(40 MG) Prior prescription for Lipitor in 120 days
- CRESTOR(TAB)(5 MG) At least 2 of Prior prescription for Lipitor in 365 days or Mevacor in 365 days or Pravastatin Sodium in 365 days or Zocor in 365 days
- CYCLOSET Prior prescription for Glyburide-metformin Hcl in 180 days or Metaglip in 180 days or Riomet in 180 days
- DALIRESP Prior prescription for Arcapta Neohaler in 120 days or Atrovent Hfa in 120 days or Combivent Respimat in 120 days or Combivent in 120 days or Foradil in 120 days or Serevent Diskus in 120 days or Spiriva in 120 days
- DAYTRANA Prior prescription for in 120 days or Methylphenidate Hcl Cd in 120 days or Methylphenidate Hcl in 120 days or Quillivant Xr in 120 days or Ritalin La in 120 days or Ritalin-sr in 120 days
- DELZICOL Prior prescription for Apriso in 120 days or Colazal in 120 days
- DESLORATADINE Prior prescription for Desloratadine in 120 days or Xyzal in 120 days
- DESVENLAFAXINE FUMARATE ER At least 2 of Prior prescription for Citalopram Hbr in 365 days or Lexapro in 365 days or Paxil Cr in 365 days or Remeron in 365 days or Selfemra in 365 days or Venlafaxine Hcl Er in 365 days or Zoloft in 365 days or Zyban in 365 days
- DETROL Prior prescription for Oxybutynin Chloride Er in 120 days or Oxybutynin Chloride in 120 days
- DEXILANT Prior prescription for Omeprazole in 120 days or Prevacid 24hr in 120 days or Prevacid in 120 days or Prilosec Otc in 120 days or Prilosec in 120 days or Protonix in 120 days
- DIFICID Prior prescription for Vancomycin Hcl in 120 days
- DIPENTUM Prior prescription for Apriso in 120 days or Colazal in 120 days
- DORYX(TAB DR)(200 MG) Prior prescription for Vibramycin in 120 days
- DOVONEX Prior prescription for Topical Anti-inflammatory Steroidal in 120 days
- DRITHOCREME HP Prior prescription for Topical Anti-inflammatory Steroidal in 120 days
- DUETACT Prior prescription for Avandamet in 120 days or Avandaryl in 120 days or Avandia in 120 days or Chlorpropamide in 120 days or Glimepiride in 120 days or Glucotrol XI in 120 days or Glyburide-metformin Hcl in 120 days or Metaglip in 120 days or Micronase in 120 days or Riomet in 120 days or Tolazamide in 120 days or Tolbutamide in 120 days
- DUEXIS Prior prescription for Etodolac Er in 120 days or Flurbiprofen in 120 days or Indomethacin in 120 days or Ketoprofen in 120 days or Meclofenamate Sodium in 120 days or Mobic in 120 days or Nalfon in 120 days or Oxaprozin in 120 days or Piroxicam in 120 days or Relafen in 120 days or Sulindac in 120 days or Tolmetin
