

L.A. Care
HEALTH PLAN®

For All of L.A.

January 25, 2019

Dear Participating Hospitals,

As part of the Private Hospital Directed Payment (PHDP) Program, the California Department of Health Care Services (DHCS) has asked Plans/Hospitals to report the contract status for each line included in their December 2018 volume chart for Phase I.

Plans must identify whether the contract status was:

- 1. Contracted (C)**
- 2. Non-Contracted (NC)**
- 3. Hospital-to-Hospital (H)**

Your organization has been identified as having not set up the sFTP site *or* is currently in the process of doing so. The file size has exceeded system limitations and cannot be sent via secure email. Therefore, L.A. Care Health Plan (L.A. Care) has reviewed the file on behalf of your organization and has flagged all line items as “Contracted (C).” **Should your organization believe this information is inaccurate, please email PNMProjects@lacare.org with justification for potential Non-Contracted (NC) or Hospital-to-Hospital (H) designation by January 29, 2019.** A lack of response from your organization by the stated deadline of January 29, 2019 will be understood as an acceptance of contract status designated by L.A. Care and we will proceed with submission to DHCS.

As previously mentioned in prior webinars and distributed documents, L.A. Care must submit one (1) consolidated file of all flagged services to DHCS by February 1, 2019. Further, this process will be repeated again in March 2019 once L.A. Care has received new files from the State.

Please direct questions to the designated inbox for PHDP-related inquiries at PNMProjects@lacare.org.

We thank you for your participation and collaboration.
