

About L.A. Care Health Plan

Mission Statement

L.A. Care's mission is to provide access to quality health care for Los Angeles County's vulnerable and low-income communities and residents and to support the safety net required to achieve that purpose.

Overview

Committed to the promotion of accessible, affordable and high quality health care, L.A. Care Health Plan (Local Initiative Health Authority of Los Angeles County) is an independent local public agency created by the State of California to provide health coverage to low-income Los Angeles County residents. With more than 1.4 million members in seven product lines, L.A. Care is the nation's largest publicly operated health plan.

L.A. Care Health Plan is governed by 13 board members representing specific stakeholder groups, including consumer members, physicians, federally qualified health centers, children's health care providers, local hospitals and the Los Angeles County Department of Health Services.

L.A. Care advances individual and community health through a variety of targeted activities including a Community Health Investment Fund that has awarded more than \$132 million throughout the years to support the health care safety net and expand health coverage. The patient-centered health plan has a robust system of consumer advisory groups, including eleven Regional Community Advisory Committees (governed by an Executive Community Advisory Committee), health promoters, and three Family Resource Centers that offer free health education and exercise classes to the community, and has made significant investments in Health Information Technology for the benefit of the more than 10,000 doctors and other health care professionals who serve L.A. Care members.
