What is Medi-Cal?
Medi-Cal (California’s Medicaid program) is a public health insurance program that provides health care coverage for low-income individuals and families who meet defined eligibility requirements.

Medi-Cal offers no-cost and low-cost health coverage to eligible people living in California.

What is the L.A. Care Medi-Cal Plan?
L.A. Care Medi-Cal Plan is a free public program that provides health care coverage to adults, families, older adults and people with disabilities who meet the income requirements.

People in managed care must see doctors who work with their health plan and their medical group (if they have one).

What is Medi-Cal Managed Care?

- Medi-Cal Managed Care is an organized system to help members get high-quality care and stay healthy.
- Medi-Cal Managed Care health plans help members find doctors, pharmacies and health education programs.
- Medi-Cal Managed Care health plans also offer care coordination, referrals to specialists, 24-hour nurse advice telephone services and Member Services assistance available 24 hours a day, 7 days a week (including holidays).

Who is Your Primary Care Provider (PCP)?

- Your PCP is your main doctor and is the first person you go to when you have a health problem.
- Your PCP makes sure you get the right care in the right place at the right time.
- All new members should see their PCP for the first time within three months of joining L.A. Care for an initial health assessment (IHA).
How to Change Your PCP?

Learn about your Medi-Cal Plan
Medi-Cal Renewal

During the COVID-19 public health emergency (PHE), you have been able to keep your coverage regardless of any changes in your circumstances. However, once the Medi-Cal redetermination process resumes, the Los Angeles County Department of Public Social Services (DPSS) will check to see if you still qualify for free or low-cost Medi-Cal.

Keep your Medi-Cal benefits by renewing on time. Here is some important renewal information:

What can I do to prepare for my Medi-Cal renewal?

- If you moved recently, or if any of your contact information, like your phone number or an email address, has changed, report your changes to DPSS to make sure you get important information about your Medi-Cal coverage.
- If you got a new job or your income has changed, be prepared to provide verifications.
- Check your mail – If you receive a renewal packet/form or a notice asking for more information, you may submit the information by mail, phone, in person, or online.
- Check your online BenefitsCal account for alerts – You may submit renewals or requested information online.

Do I need to complete a Medi-Cal renewal?

- DPSS will try and renew your Medi-Cal with information they already have available.
- DPSS will only ask you for more information if they need it to renew your Medi-Cal. It is important that Medi-Cal beneficiaries respond to county requests. This will make sure DPSS has the most current information it needs to renew your Medi-Cal coverage.

What happens after I return my form?

- DPSS will send you a letter to let you know if you still qualify for Medi-Cal coverage. If additional information is needed to renew your coverage, DPSS will send you a letter requesting any missing information.

Here is some important DPSS contact information to help you with your renewal:

1. BenefitsCal website: benefitscal.com
   BenefitsCal is a website for LA County residents to apply for and to view benefits online for CalWORKs, CalFresh, General Relief, and Medi-Cal applications

2. DPSS Customer Service Center (CSC)

LA2824 12/22  Know Your Care Options  9
COVID-19 is a very contagious virus. This virus spreads from person to person and causes serious illness like long-COVID, hospitalization and death.

All public health agencies and L.A. Care recommend that everyone who is eligible get the COVID-19 vaccine and boosters. The COVID-19 vaccines are now available for everyone who is 6 months and older. It is the best way to protect yourself and your loved ones and for all of us to get back to a more normal life.

The vaccines do not infect you with the COVID-19 virus. Common side effects of these vaccines during clinical trials included pain at the injection site, fatigue, headache, muscle and joint pain, chills and mild fever. Side effects are generally mild and go away after a day or two, while the benefit of the vaccines remain.

Many sites throughout L.A. County are now offering vaccines without an appointment and have expanded hours to include evenings and weekends. Visit myturn.ca.gov to find a vaccination location near you.

There is no cost to L.A. Care members to receive the vaccine.

Staying Safe

- The severity of COVID-19 infection can be reduced by:
  - Staying up to date with the recommend COVID-19 vaccines and boosters
  - Following the local public health guidance on when masks should be worn
  - Getting tested for COVID-19 if you are symptomatic and/or may have been exposed to someone who is COVID-19 positive
  - Asking your provider if you qualify for COVID-19 therapeutics, which are oral and anti-viral medications that can help if you test positive for COVID-19
If you test positive for COVID-19 and have questions on which treatment is right for you, please contact your medical provider or call the L.A. County COVID-19 information line at 833-540-0473, 8:00 a.m. - 8:30 p.m.

Remember to always follow the 3 C’s when there is high COVID-19 Community Transmission:

- Avoid closed spaces
- Avoid crowded places
- Avoid close-contact settings, such as close conversations

Questions About COVID-19?

If you have questions about getting the COVID-19 vaccine or if you want to learn more about the new oral and anti-viral medications available to those who test positive for COVID-19, then please talk with your primary care provider.

If you think you may have COVID-19, call your health care provider’s office right away. Do not go to the provider’s office without calling first.

For more information on COVID-19, visit lacare.org/vaccine.
