### Human Papillomavirus Vaccine for Female Adolescents (HPV)

**Q: Which members are included in the sample?**

**A:** Female adolescents 13 years of age who had three doses of the human papillomavirus (HPV) vaccine by their 13th birthday.

**Q: What codes are used?**

**A:** Please reference attached sample codes; reference Value Set Directory for additional codes.

**Q: What documentation is needed in the medical record?**

**A:** Must include any of the following:

- A note indicating the name of specific antigen and the date of service
- A certificate of immunization that includes specific dates and types of immunizations administered.
- Anaphylactic reaction to the vaccine or its components any time on or before the member’s 13th birthday
- Anaphylactic reaction to the vaccine or its components with a date of service prior to October 1, 2011

**HPV vaccine** – At least 3 HPV vaccinations, with different dates of service, on or between the member’s 9th and 13th birthdays.

**Q: What type of document is acceptable?**

**A:** One or more of the following:

- Certificate of immunization including specific dates and types of vaccines
- Immunization Record and health
- History Form
- Health Maintenance Form/Report
- Print out of LINK/CAIR registry
- Progress note/Office visit – with notations of vaccines given
- Notation of anaphylactic reaction to serum or vaccination
**Human Papillomavirus Vaccine for Female Adolescents (HPV)**

**Q: How to improve score for this HEDIS measure?**

**A:**
- Upload immunizations on to California Immunizations Registry (http://cairweb.org)
- Use the Childhood and Adolescent Wellness Flyers for Providers as a guideline of recommended health services for certain age groups (http://www.lacare.org/sites/default/files/LA1401_0815.pdf)
- Use every office visit (including sick visits) to provide immunizations and well-child visits
- Educate parents about the importance of timely vaccinations and share the immunization schedule
- Use EHR alerts to notify staff of immunizations
- Outreach to females starting from age 9 to administer the vaccine
- Use of complete and accurate Value Set Codes.
- Timely submission of claims and encounter data
- Ensure proper documentation in medical record
- Anaphylactic reaction to the vaccine or its components - *documentation will assist in excluding from the HEDIS sample*
