### Foreword

The L.A. Care Covered & L.A. Care Covered Direct formulary is a preferred list of covered drugs, approved by the L.A. Care Health Plan Pharmacy Quality Oversight Committee. This formulary applies only to outpatient drugs and self-administered drugs. It does not apply to medications used in the inpatient setting or medical offices.

The formulary is a continually reviewed and revised list of preferred drugs based on safety, clinical efficacy, and cost-effectiveness. The formulary is updated on a monthly basis and is effective the first of every month. These updates may include, and are not limited to, the following: (i) Removal of drugs and/or dosage forms. (ii) changes in tier placement of a drug that results in an increase in cost sharing (iii) any changes of utilization management restrictions, including any additions of these restrictions. Updated documents are available online at: <http://www.lacare.org>.

If you have questions about your pharmacy coverage, call Member Services at 1-855-270-2327 (TTY 711), available 24 hours a day, 7 days a week.

### How to Use the Formulary

The formulary drug listing begins on Page 9. A prescription drug may be located by looking up the therapeutic category and class of the drug or the brand or generic name of the drug in the alphabetical index. If a generic equivalent for a brand name drug is not available or is not covered, the drug will not be separately listed by its generic name. Drugs available in generic formulations are listed by their generic names and it's most common proprietary (branded) name is capitalized next to the generic name in parenthesis. Drugs that are only available in brand name formulations are listed in ALL CAPITAL letters.

The formulary can be searched by using the "Ctrl + F" function or the index. Drugs can be searched by the generic name, proprietary name, or therapeutic drug category.

The presence of a prescription drug on the formulary does not guarantee that a member will be prescribed that prescription drug by his or her prescribing provider for a particular medical condition.

## Generic and Brand Name Medications

L.A. Care Covered & L.A. Care Covered Direct Plans cover generic and brand name drugs. However, when available, FDA approved generic drugs are to be used in all situations, regardless of the availability of a brand. Generic drugs generally cost less than brand name drugs. All drugs that are or become available generically are subject to review by L.A. Care's Pharmacy Quality Oversight Committee.

A prescriber may request a brand name product in lieu of an approved generic, if the prescriber determines that there is a documented medical need for the brand equivalent. This type of request for coverage may be made using the 'Medication Request Process' described on Page 6.

## How Drugs Are Listed

Drugs are listed alphabetically by its brand and generic names in the therapeutic category and class to which it belongs. This formulary uses the Medispan classification system.

If a generic equivalent for a brand name drug is available, and both the brand name and generic equivalents are covered, the generic drug will be listed separately from the brand name drug in all ***bold and italicized lowercase*** letters.

In the event a generic drug is marketed under a proprietary, trademark protected brand name, the brand name will be listed in all CAPITAL letters after the generic name in parentheses and regular typeface with first letter of each word capitalized.

A brand name drug is listed in all CAPITAL letters followed by the generic name in parenthesis in all ***bold and italicized lowercase*** letters.

**Example:** ANTICOAGULANTS  
HEPARINS AND HEPARINOID-LIKE AGENTS

Drug Name	Drug Tier	Requirements/Limits
<b><i>enoxaparin inj</i></b> 100MG/ML, 120MG/0.8ML, 150MG/ML, 300MG/3ML, 30MG/0.3ML, 40MG/0.4ML, 60MG/0.6ML, 80MG/0.8ML	1	QL= 17 days supply
FRAGMIN INJ 10000UNIT/ML, 12500UNIT/0.5ML, 15000UNIT/0.6ML, 18000UNT/0.72ML, 2500UNIT/0.2ML, 5000UNIT/0.2ML, 7500UNIT/0.3ML, 9500UNIT/3.8ML <b><i>(dalteparin sodium)</i></b>	3	

From the above example:

Generic Drug:

- ***enoxaparin inj***

Brand Drug:

- FRAGMIN ING (***dalteparin sodium***)

## Non-Formulary Medications

Any drug not found in this formulary listing published by L.A. Care Health Plan is considered a non-formulary drug.

Sometimes, doctors may prescribe a drug that is not on the formulary. This will require that the doctor get authorization from L.A. Care before the member can fill the prescription. To decide if the non-formulary drug will be covered, L.A. Care may ask the doctor and/or pharmacist for more information. This type of request for coverage may be made using the 'Medication Request Process' described on Page 6.

L.A. Care will reply to the doctor and/or pharmacist within 24 hours for urgent requests or 72 hours for standard requests after getting the requested medical information. Urgent circumstances exist when a health condition may seriously jeopardize life, health, or the ability to regain maximum function or when undergoing a current course of treatment using a non-formulary drug.

L.A. Care will provide coverage pursuant to a non-urgent request for the duration of the prescription, including refills.

L.A. Care will provide coverage, including refills, pursuant to a request based on exigent circumstances for the duration of the exigency.

The doctor or pharmacist will let you know if the drug is approved. After approval, you can get the drug at a Plan Pharmacy. If the non-formulary drug is denied, you have the right to appeal. You can file a grievance or complaint relating to denial of a coverage request. Coverage documents provide more information on appeal rights and procedures.

## **Benefit Coverage and Limitations**

This printed formulary does not provide information regarding the specific coverage and limitations an individual may have. The individual may have specific benefit inclusions, exclusions, and/or cost share which are not reflected in the formulary.

This formulary only applies to outpatient drugs and self-administered drugs. These would be considered to be covered under a member's outpatient drug benefit. This formulary does NOT apply to medications used in an inpatient setting or drugs that are not self-administered. These would be considered to be covered under a member's medical benefit. Any specific questions regarding their coverage should be directed to L.A. Care Health Plan Member Services at 1-855-270-2327 (TTY 711)

## **How to Find a Pharmacy**

To find a pharmacy near you, visit the L.A. Care website at lacare.org to find a L.A. Care network pharmacy in your neighborhood. Click on each of the following:

- (1) For Members
- (2) Pharmacy Services
- (3) "Search Now" in the *Find a Pharmacy* tab

Be sure to show your L.A. Care Member ID card when you fill your prescriptions at the pharmacy.

You can fill prescriptions at any participating (network) pharmacy unless it is a prescription for a specialty drug. Some medications are subject to limited distribution by the U.S. Food and Drug Administration or require special handling, provider coordination, or special education that cannot be provided at your local pharmacy. Antineoplastic and biologic agents are examples of such specialty medications and are identified in the formulary with special code SP (Specialty Pharmacy Availability), MSP (Mandatory Specialty Pharmacy), LMS (Mandatory Lumicera Specialty Pharmacy), or KMS (Mandatory Kroger Specialty Pharmacy). You may refer to the formulary by visiting L.A. Care's website lacare.org for information on whether a medication must be filled at a specialty pharmacy.

## Description of Coverage

We cover outpatient drugs, supplies, and supplements specified in this section when prescribed as follows and obtained at a Plan Pharmacy or through our mail-order service:

We cover a variety of Food and Drug Administration (FDA) approved prescription contraceptive methods including the following prescription contraceptive methods including the following contraceptive drugs and devices at no charge (\$0 co-payment): (a) oral contraceptives (b) emergency contraception pills (c) contraceptive rings (d) contraceptive patches (e) cervical caps (f) diaphragms

Coverage also includes a 12-month supply of FDA-approved, self-administered hormonal contraceptives dispensed at one time.

If a covered contraceptive drug or device is unavailable or deemed medically inadvisable by your medical practitioner, you can request an authorization of a non-covered contraceptive drug or device as prescribed by your medical practitioner. If your authorization is approved by the plan, the contraceptive drug or device will be provided at no charge (\$0 co-payment).

We cover the following preventive items at no charge (\$0 co-payment) when prescribed by a Plan Provider: (a) aspirin (b) folic acid supplements for pregnant women (c) iron & fluoride supplements for children (d) tobacco cessation drugs and products

We cover the following outpatient drugs, supplies, and supplements: (a) drugs that require a prescription by law and certain drugs that do not require a prescription if they are listed on our drug formulary (b) needles & syringes needed to inject covered drugs and supplements (c) inhaler spacers needed to inhale covered drugs (d) diabetic testing supplies such as blood glucose test strips, urine test strips, lancets, insulin syringes/pens covered under the formulary drug list.

## How Much I Will Pay for My Drugs

To see how much you will pay for a drug, check the abbreviations in the Drug Tier column on the formulary. The copayment or coinsurance for each tier is defined in your Summary of Benefits or other plan documents.

Below is a description for each tier:

Tier	Description
Tier 1	Most generic drugs and low cost preferred brands
Tier 2	Non-preferred generic drugs, preferred brand name drugs, any other drugs recommended by the plan's pharmaceutical and therapeutics (P&T) committee based on drug safety, efficacy, and cost.
Tier 3	Non-preferred brand name drugs, drugs that are recommended by P&T committee based on drug safety, efficacy and cost, generally have a preferred and often less costly therapeutic alternative at a lower tier
Tier 4	Drugs that are biologics and drugs that the Food and Drug Administration (FDA) or drug manufacturer requires to be distributed through specialty pharmacies, drugs that require the enrollee to have special training or clinical monitoring, drugs that cost the health plan (net of rebates) more than \$600 of rebates of rebates for 1-month supply.

Cost-sharing of each tier is individualized by the type of plan. Please see the following link for the cost-sharing specific to your plan: <http://www.lacare.org/members/welcome-la-care/member-documents/la-care-covered>

Note: Member cost-share for oral anti-cancer drugs shall not exceed \$250 for a script of up to 30 days per state law

## Restrictions on Medication Coverage

Certain covered drugs may have additional requirements or limits on coverage. These are denoted throughout the document using the following symbols:

Symbol	Restriction	Description
INF	Infertility	Infertility drugs
NC	Not Covered	Drug that is non-formulary and will not be paid for by the plan without prior approval/prior authorization
QL	Quantity Limit	Coverage may be limited to specific quantities per prescription and/or time period
VAC	Vaccine Program	Coverage is available through a vaccine program
LD	Limited Distribution	Coverage is available through a limited distributor or limited number of distributors
OTC	Over the Counter	Coverage of OTC medication
RS	Restricted to Specialist	Coverage may be dependent on the specialty of the prescribing physician
MSP	Mandatory Specialty Pharmacy Program	All fills, including the initial fill MUST be dispensed at the specialty pharmacy provider of the plans choice
KMSP	Mandatory Specialty Pharmacy Program	All fills, including the initial fill MUST be dispensed at the specialty pharmacy provider of the plans choice
LMSP	Mandatory Specialty Pharmacy Program	All fills, including the initial fill MUST be dispensed at the specialty pharmacy provider of the plans choice
PA	Prior Authorization	Requires specific physician request process
SMKG	Smoking Cessation	Coverage for the treatment of smoking cessation drugs, which may have specific restrictions
ST	Step Therapy	Coverage may require one or more "prerequisite" first step drugs to be tried before progressing to the second step drug
CO	Carve-Out	Drugs carved out by the Department of Health Care Services
EXC	Exclusion	Plan exclusion
SF	Split Fill	Limited to two 15 day fills per month for first 3 months

Please refer to the formulary listing beginning on Page 9 for details regarding specific agents.

## **Medication Request Process**

Some drugs have coverage rules or have limits on the amount you can get.

### **Formulary Agents**

- A. Prior Authorization (PA): These drugs require approval prior to being dispensed at a network pharmacy. Requests are reviewed with specific Prior Authorization guidelines. Each request will be reviewed on individual patient need. If the request does not meet the guidelines established by the P&T Committee, the request will not be approved and alternative therapy may be recommended.
- B. Quantity Limits (QL): These drugs have quantity limits. If quantities exceeding the limit are necessary, an exception to coverage may be requested by the prescriber. Each request will be reviewed on individual patient need. Approval will be given if a documented medical need exists without compromising safety.
- C. Step Therapy (ST): These drugs require one or more first step drugs to be tried before progressing to the second step drug. If there is a medical need to use a second step drug without trying a first step drug, an exception to coverage may be requested by the prescriber. Each request will be reviewed on an individual patient need. If you have already tried and failed the preferred drug(s), or if you are already taking a drug that is subject to step therapy when you switch to an L.A. Care plan, you will not have to undergo step therapy and the drug will be approved for coverage when medically necessary

### **Non-Formulary Agents**

- A. Any drug not found on this list is considered non-formulary. Coverage for non-formulary agents may be requested by the prescriber. Each request will be reviewed on individual patient need. Approval will be given if a documented medical need exists.
- B. The 'Medication Request Process' is generally not available for drugs that are specifically excluded by benefit design. For benefit exclusions refer to the 'General Exclusions' section below.

You can ask for a Prescription Drug Prior Authorization Or Step Therapy Exception Request Form be sent to the provider by calling Member Services at 1-855-270-2327 (TTY 711), available 24 hours a day, 7 days a week.

A decision for approval or denial of the exception request or prior authorization can be made within 24 hours if the request is urgent or within 72 hours if the request is not urgent. If we fail to respond within the appropriate time frames, the request is deemed granted.

Non-approved requests may be appealed. The prescriber must provide information to support the appeal on the basis of medical necessity.

## **General Benefit Exclusions (Not Covered)**

Please note that this list is subject to change.

- A. Drugs specifically listed as not covered
- B. Any drug products used for cosmetic purposes
- C. Infertility agents, when used to treat infertility
- D. Experimental drug products, or any drug product used in an experimental manner, unless accepted for use by professionally recognized standards of practice

If L.A. Care's coverage is amended to exclude a drug that we have been covering and providing to you, we will continue to provide the drug if a prescription is required by law and a Plan Physician continues to prescribe the drug for the same condition and for a use approved by the Food and Drug Administration.

For additional information regarding prescription drug coverage, please refer to the L.A. Care Covered Evidence of Coverage (Member Handbook).

## **Pharmacist and Physician Feedback**

The formulary is a tool to promote cost-effective prescription drug use. L.A. Care has made every attempt to create a document that meets all therapeutic needs; however, the art of medicine makes this a formidable task. L.A. Care welcomes the participation of physicians, pharmacists, and ancillary medical providers, in this dynamic process. Physicians and pharmacists are highly encouraged to direct any suggestions or comments to L.A. Care via the Provider's Solution Center at 1-866-522-2736.

## **Definitions**

**"Brand name drug"** is a drug that is marketed under a proprietary, trademark protected name. The brand name drug is listed in all CAPITAL letters.

**"Coinsurance"** is a percentage of the cost of a covered health care benefit that an enrollee pays after the enrollee has paid the deductible, if a deductible applies to the health care benefit, such as the prescription drug benefit.

**"Copayment"** is a fixed dollar amount that an enrollee pays for a covered health care benefit after the enrollee has paid the deductible, if a deductible applies to the health care benefit, such as the prescription drug benefit.

**"Deductible"** is the amount an enrollee pays for covered health care benefits before the enrollee's health plan begins payment for all or part of the cost of the health care benefit under the terms of the policy.

**"Drug Tier"** is a group of prescription drugs that corresponds to a specified cost sharing tier in the health plan's prescription drug coverage. The tier in which a prescription drug is placed determines the enrollee's portion of the cost for the drug.

**"Enrollee"** is a person enrolled in a health plan who is entitled to receive services from the plan. All references to enrollees in this formulary template shall also include subscribers as defined in this section below.

**"Exception request"** is a request for coverage of a prescription drug. If an enrollee, his or her designee, or prescribing healthcare provider submits an exception request for coverage of a prescription drug, the health plan must cover the prescription drug when the drug is determined to be medically necessary to treat the enrollee's condition.

**"Exigent circumstances"** are when an enrollee is suffering from a health condition that may seriously jeopardize the enrollee's life, health, or ability to regain maximum function, or when an enrollee is undergoing a current course of treatment using a non-formulary drug.

**"Formulary"** is the complete list of drugs preferred for use and eligible for coverage under a health plan product, and includes all drugs covered under the outpatient prescription drug benefit of the health plan product. Formulary is also known as a prescription drug list.

**"Generic drug"** is the same drug as its brand name equivalent in dosage, safety, strength, how it is taken, quality, performance, and intended use. A generic drug is listed in ***bold and italicized lowercase letters***.

**"Nonformulary drug"** is a prescription drug that is not listed on the health plan's formulary.

**"Out-of-pocket cost"** are copayments, coinsurance, and the applicable deductible, plus all costs for health care services that are not covered by the health plan.

**"Prescribing provider"** is a health care provider authorized to write a prescription to treat a medical condition for a health plan enrollee.

**"Prescription"** is an oral, written, or electronic order by a prescribing provider for a specific enrollee that contains the name of the prescription drug, the quantity of the prescribed drug, the date of issue, the name and contact information of the prescribing provider, the signature of the prescribing provider if the prescription is in writing, and if requested by the enrollee, the medical condition or purpose for which the drug is being prescribed.

**“Prescription drug”** is a drug that is prescribed by the enrollee's prescribing provider and requires a prescription under applicable law.

**“Prior Authorization”** is a health plan's requirement that the enrollee or the enrollee's prescribing provider obtain the health plan's authorization for a prescription drug before the health plan will cover the drug. The health plan shall grant a prior authorization when it is medically necessary for the enrollee to obtain the drug.

**“Step therapy”** is a process specifying the sequence in which different prescription drugs for a given medical condition and medically appropriate for a particular patient are prescribed. The health plan may require the enrollee to try one or more drugs to treat the enrollee's medical condition before the health plan will cover a particular drug for the condition pursuant to a step therapy request. If the enrollee's prescribing provider submits a request for step therapy exception, the health plans shall make exceptions to step therapy when the criteria is met.

**“Subscriber”** means the person who is responsible for payment to a plan or whose employment or other status, except for family dependency, is the basis for eligibility for membership in the plan.

# **L.A. CARE HOME INFUSION DRUG LIST**

## **Alphabetical Index**

**3/1/2023**

### **Search Tip:**

This is a large document, but you can search quickly and easily by clicking on the binocular icon on your toolbar or using the CTRL+F search function from your keyboard. It will then display a search box for you to type in the name of the drug you want to locate. If you do not know the correct spelling, you can start your search by entering just the first few letters of the name.

**NC** =Not Covered

**generic** =small letters

**BRANDS** =CAPITAL LETTERS

Coverage of medications, including those not otherwise identified by qualifiers such as QL/PA/ST, may be subject to safety screenings and other clinical edits in the course of claims transaction processing.

\*\* Products listed may not be all inclusive and are subject to change.

\*\*\*Products are limited to the L.A. Care Home Infusion Network Pharmacies.
